ENERO

- ENERO is a non-profit association composed by leading Research and Technology Organizations (RTO's) in Europe.
- ENERO's business area is the development of environmental science and technologies, sustainable and safe production, resource efficiency and eco-innovation.
- The ENERO members are non academic, non profit organizations acting at the interface of *public authorities* (national and European) and **industry** within the *European Research Area (ERA)*

The ENERO members:

- focus on **applying** fundamental research and on **valorisation**;
- and are very conscious of the need for mutual cooperation and strong partnerships with universities, SMEs, large corporations, public agencies and others.

ENERO objectives

- to exchange information and knowledge between European Environmental institutes;
- to be a leading actor in the European Framework Programs;
- to coordinate research efforts between research institutes and to build common European research and development projects;
- to identify and focus on potential topics of interest to public authorities and industry in Europe.

ENERO workshops

- Nano-materials and Nanoparticles Risk Management in 2006
- Interactions between Atmospheric Pollution and Climate at the Regional Scale in 2008
- Risk Assessment and Management of Strategic Energy Technologies in 2010
- Boosting and securing eco-innovations through new partnerships in 2012
- **Fostering future integration of Environment in European Research&Innovation in 2014**

Environment in Horizon 2020

*Fostering future integration of Environment
in European Research & Innovation*
